

The Power of The Creator God

God is a word referring to a supreme being that is *often used* but seldom understood. And more astounding is the word Creator which is *seldom used* and even less understood. I could understand if non-believers did not use or understand The Creator God, but I am convinced that most believers (whether in leadership or lay persons) do not fully understand who is the being that they profess to believe in. And it is with this assumption that I would like to write a few brief strokes to unlock the mystery of The Power of The Creator God.

In our contemporary society we are quite familiar with Super Heroes. Whether DC, Marvel, or others we have plenty of them to pick as our favorite (*Superman is my favorite*). These characters all have some kind of power like strength, speed, or gadgets that are greater than the average person. Many of the heroes have enough power to rescue the Earth from annihilation and peril. **NEWS FLASH “GOD IS NOT A SUPER HERO”**. He is **infinitely more powerful** than all super heroes put together. It is important for all of us to understand this fact. And the best way for me to understand the fullness of God is for me to understand His Power as the Creator. Remember this thought and meditate on it daily:

EVERYTHING in Heaven, Earth, and the Universe was created by Him and without Him Nothing exists.

Our greatest scientists believe that the Universe was started about 14 billion years ago with a “big bang”. The scientists describe in great detail how the universe was created from absolutely NOTHING but cannot agree on what or who started the “bang”. And from this NOTHING came billions of galaxies that we call our universe. To imagine the size of the universe that has billions of stars remember this

projection: It would take us about 100,000 years or more to travel to our nearest star Alpha Centauri which is only 4.2 light years away. The observable universe is projected to be **93 billion light years** across. The size of our universe alone demonstrates the power of the Creator God. The One who can **start with NOTHING and make a GIGANTIC Universe** like ours.

I would like for you to meditate on the thought of the Creation Process daily until it becomes a core part of your being. Look outside at the sunrise and night sky at the stars. Watch on YouTube for about 20 minutes "*How the Universe Works*" Episode 1. When it becomes a core part of your being, then your life will radically change. We serve a God that **created everything and holds all** of this creation together. And if He has the power to **begin and sustain** Creation, imagine the power that He can **manifest in our lives** if we have faith and believe. There is **No problem or situation** in our life that His **sovereign will** cannot prevail. To unlock The Power of The Creator God we need to **believe** He exists, **understand** His directions, and **be led** by Our Creator and Savior's Spirit.
